Mr Osamu Tsukamoto
President
Japan Carbon Frontier Organisation

Dear Mr Tsukamoto

Thank you very much for the opportunity to provide a letter of support for the 33rd Clean Coal Day in Japan International Symposium (2024) to be held on 2 to 3 September 2024.

This year's symposium's theme, "Decarbonization Journey – Practical Action Plan for Carbon Neutrality," is aligned with Queensland's strong commitment to reducing emissions, including its recently legislated targets of 75% below by 2005 levels by 2035.

The Queensland Government also announced a \$520 million program focussing on driving down emissions in Queensland's metallurgical coal industry, which is key to the development of renewable technologies and transition to a low carbon economy.

We greatly appreciate Japan's strong, longstanding relationship with Queensland across a wide variety of sectors, including coal, and look forward to collaborating on mutually beneficial pathways towards decarbonisation.

We wish you all the best for this year's event.

Yours sincerely
